## ABOUT ME

I'm a DevOps and Network Engineer with over three years of hands-on experience. I started my journey with a passion for technology, and throughout the years, I've gained deep expertise in optimizing workflows, automating processes, and building robust network infrastructures. My focus is always on making tasks easier, more efficient, and finding innovative solutions to complex challenges. From server setups to seamless integrations, I enjoy helping teams and individuals streamline their work and achieve more with less effort. I'm always eager to learn new technologies and share my knowledge to make a positive impact in everything I do

## EXPERIENCE (3 Years )

**Spraxa Solutions Pvt Ltd** - *Network Engineer*

JULY 2023 - Present

- Network infrastructure setup due to office relocation.
- Proxmox, Oracle virtual box and virtualization technologies.
